DETAILED ACTION

Remarks

This Office action is responsive to applicant's amendment filed April 6, 2004.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The rejection of claims 1-8 and 10 under 35 U.S.C. 103(a) based on Ishizuka et al. (U.S. Pat. 6,019,802), Toshio et al. (JP 10-241685) and Ein-Eli et al. (U.S. Pat. 5,962,166) has been withdrawn.

The rejection of claims 11-14 and 16-20 under 35 U.S.C. 103(a) based on Nakai et al. (U.S. Pat. 5,962,167), Toshio et al. (JP 10-241685) and Ein-Eli et al. (U.S. Pat. 5,962,166) has been withdrawn.

The rejection of claims 1-20 under 35 U.S.C. 103(a) based on Michiko et al. (JP 2001-015173), either Ishizuka et al. or Nakai et al., Toshio et al. and Ein-Eli et al. has been withdrawn.

Regarding the withdrawal of the prior art rejections, the examiner notes applicant's assertions for non-obviousness and unexpected results as shown by Tables 1 and 2 of the instant application.

Art Unit: 1745

Allowable Subject Matter

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record and to the examiner's knowledge does not teach or render obvious at least to the skilled artisan the instant invention regarding an amount of elution of manganese at 5% or less or 7% or less wherein the Li/Mn composition ratio is set in a range where the electrode potential to metal lithium is 4.8 V or more.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
